## What is this product?

### TYPE

You invest into a bearer debt obligation of the category Convertible Bond, which is subject to Austrian law and entitles the respective holder to receive amounts due from us as issuer. As a trustor, Erste Bank der oesterreichischen Sparkassen AG is liable to the issuer (trustee) for the interest payments and the redemption at maturity.

### TERM

This product has a fixed term until 06/09/2034.

### OBJECTIVES

The aim of this product is to receive regular interest payments and to benefit from rising interest rates. The product has a variable interest rate and a fixed maturity. The variable interest rate is based on the reference interest rate. A minimum interest rate will be paid. The variable interest rate is capped at the maximum interest rate. Redemption at maturity will be 100% of the nominal amount.

The security can be converted into participation rights on the respective Conversion Dates.

If you purchase the product during the term, you must pay accrued interest pro rata.

<b>Issue Date:</b>	25/02/2019
<b>Maturity Date:</b>	06/09/2034
<b>Principal Amount:</b>	100.00 EUR
<b>Variable Interest Rate:</b>	6m Euribor® p.a.
<b>Minimum Interest Rate (Floor):</b>	0.70% p.a.
<b>Maximum Interest Rate (Cap):</b>	3.00% p.a.
<b>Interest Payment:</b>	semiannually, starting on 06/09/2019
<b>Conversion Dates:</b>	semiannually, starting on 06/09/2020

The issuer has an extraordinary right of termination and is entitled to terminate the product early for tax reasons. In this case, the redemption amount may possibly be significantly below the purchase price, but at least 100% of the principal amount. You also bear the risk that the product will be terminated early at a time unfavourable for you and the amount repaid can only be reinvested at less favourable conditions.

### INTENDED RETAIL INVESTOR

This product is targeted for retail investors who emphasize a full capital protection and prefer a long-term investment horizon. The retail investor has basic knowledge and/or experience with financial products. The retail investor puts emphasis on regular payments.

## What are the risks and what could I get in return?

### RISK INDICATOR

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the issuer and the trustor are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a very low level, and poor market conditions are unlikely to impact the issuer's and trustor's capacity to pay you.

You are entitled to receive back at least 100% of your capital. Any amount over this, and any additional return, depends on future market performance and is uncertain.

However, this protection against future market performance will not apply if you cash-in before maturity.

If the issuer and trustor are not able to pay you what is owed, you could lose your entire investment.

## PERFORMANCE SCENARIOS

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The scenarios shown are illustrations based on results from the past and on certain assumptions. Markets could develop very differently in the future.

**Recommended Holding Period:** 06/09/2034  
**Example investment:** 10,000 EUR

Scenarios		If you exit after 1 year	If you exit on 06/09/2034
<b>Minimum</b>	<b>There is no minimum guaranteed return if you exit before 06/09/2034. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after cost</b>	<b>9,144 EUR</b>	<b>12,013 EUR</b>
	Average return each year	-8.6%	2.0%
<b>Unfavourable</b>	<b>What you might get back after cost</b>	<b>10,301 EUR</b>	<b>12,926 EUR</b>
	Average return each year	3.0%	2.8%
<b>Moderate</b>	<b>What you might get back after cost</b>	<b>10,486 EUR</b>	<b>13,343 EUR</b>
	Average return each year	4.9%	3.1%
<b>Favourable</b>	<b>What you might get back after cost</b>	<b>10,658 EUR</b>	<b>13,689 EUR</b>
	Average return each year	6.6%	3.4%

The stress scenario shows what you might get back in extreme market circumstances.

The scenarios shown above represent possible outcomes, which have been calculated based on simulations using the reference asset(s) past performance over up to 5 past years.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

## What happens if the issuer and the trustor are unable to pay out?

This product is not covered by any deposit guarantee scheme. You are exposed to the risk that the trustor may not be able to fulfil its obligations to the issuer and the issuer its obligations to you arising from this product in the event of an insolvency (inability to pay, over-indebtedness) or from an official order ("bail-in regime"). A total loss of your invested capital is possible.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### COSTS OVER TIME

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0.0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- 10,000 EUR is invested.

	If you exit after 1 year	If you exit on 06/09/2034
<b>Total costs</b>	129 EUR	64 EUR
<b>Annual cost impact (*)</b>	1.3%	0.1% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.2% before costs and 3.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you.

### COMPOSITION OF COSTS

One-off costs upon entry or exit		If you exit after 1 year
<b>Entry costs</b>	0.6% of the amount you pay in when entering this investment.	65 EUR
<b>Exit costs</b>	0.6% of your investment before it is paid out to you. These costs only apply if you exit before maturity.	65 EUR
<b>Ongoing costs taken each year</b>		
<b>Management fees and other administrative or operating costs</b>	0.0% of the value of your investment each year. This is an estimate based on actual costs over the last year.	0 EUR

## How long should I hold it and can I take money out early?

**Recommended Holding Period: until 06/09/2034**

The product aims to generate the return described above under "What is this product?". However, only if it is held until maturity. It is therefore recommended that you hold the product until 06/09/2034 (Maturity Date). There is no other way to withdraw your money early than to sell the product via the exchange on which it is listed or over-the-counter. No fees or penalties will be charged by the Issuer for such a transaction, but an execution fee may be charged by your intermediary. If you sell the product before it matures you may get back less than if you had held the product until maturity. In case of exceptional market situations or technical disruptions, it may be temporarily difficult or impossible to buy or sell the product.
